Student Exchange Policy

In compliance with the Pakistan Medical & Dental Council (PMDC) requirements, Women Dental College (WDC) offers a structured student exchange policy for undergraduate dental students. This policy provides opportunities for academic and clinical exposure at national and international institutions.

Objectives

The primary objectives of the student exchange program are:

1. To provide students with exposure to diverse dental education systems and clinical practices.
2. To enhance academic learning, cultural awareness, and professional development.
3. To encourage collaboration and networking with peers and professionals across institutions.
4. To strengthen the overall academic profile and international standing of WDC students.
5. To support personal growth, adaptability, and global competence among future dental professionals.

Policy Guidelines

1. Application Process

Students must apply to the Department of Dental Education & Research (DDER) at least four weeks before the intended start date of the exchange program.

The application must clearly state the proposed duration and host institution to begin the No Objection Certificate (NOC) process.

2. Assessment & Approval

After selection by a national or international exchange body, students will be evaluated by the DDER.

Upon successful evaluation, the DDER will forward the case to the Principal for final approval and issuance of the NOC.

3. Eligibility Criteria

Only 3rd year and Final year BDS students are eligible to apply for the exchange program.

4. Permissible Timeframe

Students may participate during summer or winter vacations.

Exchange during the academic session is allowed only with written permission from the concerned Head(s) of Department(s). This period will be marked as leave.

5. Duration of Exchange

Students must complete a minimum of 2 weeks and a maximum of 8 weeks at the host institution.

6. Funding & Quota

Up to four students per year may participate in national exchange programs at the college's expense.

International exchanges will be self-funded. The college will assist with documentation and admission processes.
